Clause Number	Content of Approved Provisions
114-05/MR37-02	<p data-bbox="379 197 1525 286">Supplementary Provisions for the Application of the Confirmation Report for the Vehicles Equipped with Advanced Driver Assistance System.</p> <ol style="list-style-type: none"> <li data-bbox="379 327 1525 517">1. Scope: This requirement applies to vehicle categories M, N, and L, as well as chassis equipped with advanced driver assistance systems, excluding vehicles imported by authorities, organizations, schools, or individuals for personal use, or vehicles that have been used but not yet scrapped. <li data-bbox="379 539 1525 622">2. Effective date: New vehicle types shall comply with this requirement starting from August 12, 2024. All vehicle types shall comply starting from January 1, 2025. <li data-bbox="379 645 1525 891">3. Advanced Driver Assistance System refers to a system that integrates both lateral and longitudinal control functions. It operates at speeds exceeding 25 km/h and is capable of actively intervening in driving, braking, or steering, while simultaneously controlling the vehicle's lateral (directional) and longitudinal (acceleration/ deceleration) dynamics. <li data-bbox="379 913 1525 2056">4. The applicant applying for the confirmation report on the Management Measure for the Advanced Driver Assistance System shall submit the following documents to the certification institution. The application materials must be stamped with the official seals of the applicant and its responsible personnel or include an electronic certificate verifying the applicant's identity. After the certification institution confirms the application in accordance with the Supplementary Provisions, the Confirmation Report on the Management Measures for the Advanced Driver Assistance Systems will be issued: <ol style="list-style-type: none"> <li data-bbox="443 1335 1525 1417">(1) The applicant shall submit the application documents for the Management Measures for the Advanced Driver Assistance System. <li data-bbox="443 1440 1525 1951">(2) The Safety Operation Instructions for the Advanced Driver Assistance Systems. The applicant shall submit the following documentation, ensuring it's consistent with the contents of the vehicle owner's manual. <ol style="list-style-type: none"> <li data-bbox="507 1603 1525 1686">A. Operational methods for the Advanced Driver Assistance Systems (e.g., activation, pause, or deactivation, etc.) <li data-bbox="507 1709 1525 1850">B. Precautions for use, including but not limited to the restrictions, usage guidelines for domestic road conditions, and instructions for preventing misuse, etc. <li data-bbox="507 1872 1525 1951">C. The applicant shall provide the system name and operation method of the Driver Monitor Systems (DMS), if applicable. <li data-bbox="443 1973 1525 2056">(3) Sales Personnel Training and Vehicle Delivery Information for the Advanced Driver Assistance Systems.

The official provisions are written in Chinese, this English edition is for your reference only.

- A. Sales Personnel Training Plan: A training plan shall be implemented to educate sales personnel on the correct understanding of the vehicle system's usage, as well as the information they should provide to consumers during vehicle delivery.
 - B. Vehicle Delivery Information: The vehicle manufacturer's delivery documentation shall include information to explain to consumers the correct use of the Advanced Driver Assistance Systems, along with relevant guidance materials.
- (4) Description of Warning Label for the Advanced Driver Assistance Systems:
- A. The applicant shall place at least one Chinese warning label in the vehicle, which shall include, but not be limited to, the statement: "This vehicle is not autonomous, and the driver shall maintain control of the steering wheel." The label shall be clearly and prominently placed near the driver's seat for easy identification, or displayed on the screen in the vehicle upon vehicle starting.
 - B. The applicant shall provide a diagram of the warning label, along with photographs showing the label's placement or display location.
- (5) The applicant shall include precautions for use of the advanced driver assistance system in the vehicle owner's manual and sales training materials (such as text or diagrams indicating the system's inability to recognize Truck-Mounted Attenuators (TMA)). However, the owner's manual may include relevant text or diagrams indicating the situations.
5. After the applicant has obtained the Confirmation Report on the Management Measures for the Advanced Driver Assistance Systems, if the system is newly added or has revised functions or commercial name, or other relevant details, the applicant shall submit the relevant documents and explanations prescribed above to the certification institution. The certification institution shall then issue an updated Confirmation Report for the newly added or altered Advanced Driver Assistance System.
6. The Confirmation Report on the Management Measures for the Advanced Driver Assistance Systems shall include the report number, the commercial name of the Advanced Driver Assistance System, the vehicle (or chassis) brand, the vehicle (or chassis) type or type series, and the commercial vehicle model (type) or chassis name. In the event that the Confirmation Report is lost or damaged, the original applicant may submit the relevant documentation to the certification institution to request reissuance of the report.

	<p>7. The applicant may proceed with the Vehicle Safety Type Approval process and obtain the Vehicle Safety Type Approval Certification without submitting the Confirmation Report on the Management Measures for the Advanced Driver Assistance Systems. However, if the applicant fails to apply the Advanced Driver Assistance System Management Measures within two weeks after receiving notification from the certification institution, the applicant shall submit a written explanation along with a proposed timeline for applying for an extension. If the applicant still fails to submit within the extended period, the certification institution will request the applicant to submit the report within a specific time frame. If the applicant still fails to comply with this request or apply for an extension, the certification institution shall report to the Ministry of Transportation and Communications (MOTC) for further action.</p> <p>8. The Confirmation Report on the Management Measures for the Advanced Driver Assistance Systems shall be revoked if the report does not comply with the relevant regulations.</p>
--	---

Notes :

1. The above provisions are approved according to Article 37 of the Vehicle Safety Type Approval Management Regulations.
2. Explanation of Clause Numbering Principles (“96-03/TD020-01” for example):
 - (1) 96-03: means the 3rd meeting of “Vehicle Safety Type Certification and test Related Issues Discussion Meeting.” in the 96th year of Republic of China
 - (2) TD: means “Vehicle Safety Test Directions.” When it means “Vehicle Safety Type Approval Management Regulations,” then MR is used.
 - A. Vehicle Safety Type Approval Management Regulations: “MR”.
 - B. Vehicle Safety Test Directions: “TD”.
 - (3) 020: means the Clause 020 of Vehicle Safety Test Directions (The requirement of specifications for motor vehicles).
 - (4) 01: means the 1st Supplementary Provisions for this clause of Vehicle Safety Test Directions.
